CAREER OBJECTIVE

Motivated BCA final-year student seeking a Software Engineer role to apply full-stack development skills, contribute to impactful products, and grow within a collaborative, innovation-driven team. Passionate about building scalable web applications and continuously expanding technical expertise.

EXPERIENCE

Full Stack Development Intern — Nighan2 Labs Pvt. Ltd.

Oct 2025 – Present

- Contributed to design, development, and deployment of full-stack web applications using React.js, Node.js, Express.js, and MySQL.
- Collaborated with senior developers on code reviews, ensuring quality, performance optimization, and timely delivery of project milestones.
- Gained hands-on experience with REST API design, database schema planning, and frontend component architecture.

PROJECTS

Pharmacy Management System

- Full-stack application automating pharmacy operations including inventory control, billing, and sales management.
- Built with React.js, Node.js, Express.js & MySQL — features JWT-based authentication, real-time stock tracking, and an analytics dashboard for improved performance.

Student Attendance Management System

- Web application to streamline and automate attendance recording for educational institutions.
- Designed and developed using HTML, CSS, Bootstrap, JavaScript, PHP, and MySQL with intuitive UI for both admin and faculty.

TECHNICAL SKILLS

React.js	Node.js	Java	Python	MySQL
Express.js	HTML/CSS	JavaScript	PHP	

EDUCATION

Bachelor of Computer Applications — Rani Channamma University, Belagavi

Expected 2026

Aggregate: 73.62%

PUC — Govt PU College, Nadi-Ingalagaon

2023

Aggregate: 73.17%
